PH Ross Bathroom & Tile Showroom  
Old Cabra Road, (beside Lidli)  
Hanlons Corner, Dublin 7.

Discover the bathroom  
you've always dreamed of  
or the bathroom you'd love  
to dream in.

## Our Showroom, a collaboration of creatives

Our showroom has been designed by Irish architect John-Henry Boyle and is inspired by an urban Berlin style. Within this space, we have created over 25 stylish bathrooms in a domestic style setting, to make it easier for customers to visualise the collections in their own homes. From classic bathrooms to modern cutting-edge fittings, there is something for all tastes.

From brass taps, to chrome finish modern mixers, WIFI enabled showers and statement freestanding baths to wet room enclosures, there is a bathroom solution to suit all lifestyles and preferences and the experts at PH Ross with over 40 years' experience will be on hand with the creative and design skills to match your style and budget.

Distinct design details are enhanced by the backdrop of crisp birch and bespoke black ironwork created by hand by blacksmith Dainius at Varna Studio in Wexford.

Design and function led, our selected bathroom ranges have been carefully curated, to create an exciting collection that will allow customers to achieve a stylish bathroom with quality products to suit their lifestyle and budget.

The PH Ross bathroom ranges are from leading suppliers including Adamsez, Aqualla, Halo Tiles, Ideal Standard, Flair, Merlyn and Vitra to name a few, with the latest prestige products from the collections available in-store.

Our showroom on Hanlon's corner, Cabra is a must visit, is truly a one stop destination for stylish bathroom design.

## Pop of colour

2018 will see colour play a greater role in bathroom design. Natural sand tones and neutral grey colours are still very much the main colour choice for tiling, but complemented with strong colours such as navy, heritage blues and greens, strong oranges or yellows. There is a common misconception that using dark colours will make a space appear smaller, but this is not the case and using dark colours such as grey or navy for tiling will add warmth and tranquillity to the bathroom design.

Colour added in feature walls can be created with tiling or paint. Add a “pop of colour” with a coloured bath or sink. The Adamsez ‘Calabar’ freestanding bath can be ordered in any colour and makes for stunning focal feature in a bathroom. Or consider the stunning gold Emma Square Basin.

Natural stone textures and wood effect tiles have come a long way and modern collections replicate patterns beautifully and are a practical way to add a natural feel to your bathroom.

Chrome is still a popular choice for tapware but 2018 will see more brass, anthracite, rose gold and bronze colours such as the Aqualla - Ramore brassware series also available in Copper. Also matching shower trays and shower frames to coordinated the look.

Black is back with a serious bang this year and we have all you need to create that stylish look, in-store. Achieve a contemporary look by choosing black; whether it’s a shower enclosure or chic black tiling. Finish off the look with the stylish range of black bathroom accessories.

## The minimalist style

Minimalism will be a key style for bathrooms in 2018. Brassware is mounted and built in for a sleek finish which is easier to clean. Storage is built in or hidden behind drawers, doors or mirrors to maintain an uncluttered look. To add life to the minimalist look, colour is introduced as a focal point, whether it’s a painted freestanding bath, or a brightly patterned tiled wall the colour adds to the scheme, complementing not overpowering the finished look.

Space saving plays into the minimalist look. For those short on space, a ‘wet room’ shower is space saving solution over a built-in shower unit for small spaces.
